90-day window

Practice heatmap

A qualifying day contains at least one manually recorded problem, review or contest session.

Platform breakdown

Personal tracker	28 days
Manual import	14 days
Provider sync	Not available

No active sync

What the pattern says

Your longest rhythm is 6 consecutive practice days
Jan 8–Jan 13, 2025 — Rule-based

Practice appears strongest on Tuesday and Thursday
Jan 1–Mar 24, 2025 — Rule-based

4 of the last 7 days contain qualifying activity
Mar 18–Mar 24, 2025 — Rule-based

These are summaries of recorded activity, not predictions or recommendations.

Consistency alerts

Two gaps longer than 5 days appear in the selected window.

Alert threshold: a gap of 5 or more days · representative records.

Recovery mode

Not enabled

Recovery guidance is not approved for this workspace.

Learn about recovery mode

Streak metrics use representative workspace activity. Timezone, qualifying-activity rules and minimum-data limits should be confirmed before implementation.
